and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I keep my cell phone in my car and use it for emergencies only. I do not believe I have ever made an interstate call on it. If the rates are raised I will have to discontinue my use of the cell phone. If enough people do this You will start to create a ripple effect and soon all that will be left will be the giant companies that force people to sign contracts and charge much more than amny people can afford. But this may be Your plan, after all You get money from their lobbieists right? Where do all these taxes from my pay check go anyway? 42% taken out and still You feel the need to tax and charge me more. Absolty disgusting. I'm not sure maybe You could tell me who appoints You to Your positions so I can not vote for them next term?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Mike M.
